“HOLDOVER”

“The basic publication has changed; impact on supplemental information is under review by the OPR. Users should follow supplemental information that remains unaffected.”

AFI 33-219, 1 June 1998, is supplemented as follows:

15.1. The wing information protection (IP) office will be responsible to develop and manage a telecommunications monitoring notice and consent program for compliance with requirements identified in paragraph 15 and Attachment 2 of the basic instruction and this supplement.

15.1.1. Program will include all on-base/off-base organizations, regardless of their affiliation, where personnel use DoD information systems that interconnect with on-base networks.

15.1.2. Use established Security Awareness Training and Education (SATE) Program architecture to disseminate notice and consent information to all personnel. Base activities not participating in the AETC SATE program will appoint a focal point to work with Wing IP personnel to ensure compliance with this instruction.

15.1.3. Compliance verification will be accomplished by IP personnel during the annual Information Protection Assessment and Assistance Program visit to all units.

A2.3.5. Banners will be installed on all automated information systems to include unclassified and classified computers (networked or stand-alone) network servers file transfer protocol servers and world wide web (WWW) home pages. (**NOTE:** WWW home pages are defined as any home page that is directly accessible via the Internet.)

A2.3.5.1. Warning banner content will be consistent with this instruction. Wording deviations will be approved by the installation staff judge advocate.

A2.3.5.2. As a minimum, warning banners will be installed to appear at boot-up on non-networked systems and prior to network log-on for networked systems. Users must acknowledge the warning banner before proceeding to the next screen.

A2.4.2. The Security Awareness Training and Education (SATE) Program initial training package for newly assigned personnel will include information on notice and consent procedures.

THOMAS L. HICKERSON, Colonel, USAF
Deputy Director of Communications and Information
